Cervical Smear Clinic

Caring for Pacific Peoples

“TODAY FOR TOMORROW”

My name is May Thomas. I am a Registered Nurse & Certified Cervical Smear Taker. My nursing background includes being trained in Australia as a Registered Nurse & Midwife, with a certificate in Neonatal Intensive Care. I am concurrently working as the Well Child Nurse for South Waikato Pacific Islands Community.

CERVICAL Smear Clinic

AIM

To provide a Cervical Smear clinic in a culturally friendly Environment

A Cervical Smear test shows if there are abnormal changes in cells on the cervix

Being part of the National Cervical Screening Programme and having regular cervical smear tests every three years is the best protection against Cervical Cancer

The Cervical Smear clinic can Be accessed at the South Waikato Pacific Islands Community
